

Announcement of Pending BOA Competition

**PROVISION OF BALLISTIC MISSILE DEFENCE (BMD) INFORMATION
MANAGEMENT PORTAL WITHIN EDUCATION, TRAINING, EXERCISE
AND EVALUATION (ETEE) FUNCTIONAL SERVICES (FS)**

RFQ-CO-115114-ETEE

RFQ Estimated Release Date: May 2021

Estimated Bid Closing Date: September 2021

The purpose of this upcoming RFQ is to select a vendor for the provision of services to deliver and implement a BMD Information Management portal configured to meet the ETEE FS BMD requirements.

The prospective Bidders' list is attached. Interested companies **already holding an active BOA** with the NCI Agency may contact the below POC to request inclusion in the Bidders' list:

Senior Contracting Officer: Mr. Peter Kowalski
E-mail: Peter.Kowalski@ncia.nato.int

Annexes:

1. Summary of requirements
2. Prospective Bidders List

1. Introduction:

The purpose of this upcoming RFQ is to select a contractor through the existing NCI Agency Basic Ordering Agreement (BOA) procedure with the aim to obtain the provision of services to deliver and implement a Ballistic Missile Defence (BMD) Information Management (IM) portal.

The RFQ is conducted under the new NATO Procedures: “*Procedure Governing the Use of Basic Ordering Agreements concluded by the NATO Communications and Information Agency – 2019 version*”, Ref: AC/4-D(2019)0004 (INV)

SPECIAL NOTE: With the aim to prevent an organizational conflict of interest in industrial roles under the overarching “*BMD Increment 1 Functions in ETEE FS*” project, Bidders and their prospective Sub-Contractors shall be excluded from participation in the companion NCI Agency ETEE FS project under IFB-CO-115115-ETEE entitled “*BMD Increment 1 Functions In ETEE FS - WP4 Operational Assurance & Test*”.

2. Scope

The NCI Agency will conduct a competition to select a vendor to implement a Ballistic Missile Defence (BMD) Information Management (IM) portal. The selected contractor will use the latest NATO information portal technologies to deliver a BMD ETEE IM portal that fits into the NATO portal environment and is configured to meet the ETEE FS BMD requirements. The work will be performed in an iterative manner using an agile/Scrum approach for the software implementation portion of the effort. An intermediate delivery of the BMD ETEE IM portal is foreseen after the first year.

The rough financial order of magnitude of the resulting contract is EUR 555K. The period of contract performance is anticipated to be approximately three years.

3. Timeline

RFQ release:	May 2021
Contract Award:	December 2021
