

BOA Announcement
**Extension of OSG Mission Network to Non NATO Nation Maritime
Operation Centre**
NCI Agency Reference: RFQ-115711-NNN-MOC

Estimated Amount: 1.595.543 EUR

Estimated RFQ Release Date: 19 January 2024

Estimated Solicitation Closing Date: Anticipated on 27 February 2024

Contract Award Date: Anticipated on 30 July 2024

Competition Type: BOA Lowest Priced Technically Compliant

The NCI Agency is seeking the procurement of a new, permanent, fully accredited, reliable and scalable Network for sharing of up to NATO SECRET Releasable to Operation Sea Guardian (OSG) information with OSG Operational Partners. For that purpose, the NCI Agency is seeking to procure five (5) NNN MOC Points of Presence (POP) to facilitate exchange between OSG NNN and upgrade the Mission Anchor Function (MAF).

The list of prospective bidders is attached. Interested companies already holding an active Basic Ordering Agreement (BOA) with the NCI Agency may contact the point of contact below, to request inclusion on the list.

****Neo eProcurement Registration****

Attention Suppliers,

The NCI Agency is stepping into a new era of procurement. We have launched an eProcurement tool, Neo, to make our collaborations smoother, faster, and more transparent. If you are keen to do business with us, you will need to register in [Neo](#). This tool will offer suppliers visibility into past, current and upcoming business opportunities, and streamlines the competition cycles, contract awards, and account management.

The NCI Agency will be moving all procurement activities to Neo. Until then, selected business opportunities will be incrementally conducted in Neo. We invite all suppliers interested in these competitions to register in [Neo](#).

Annexes:

- A. Summary of Requirements
- B. List of Prospective Bidders

Annex A – Summary of Requirements

Project No. NSP015053

1. Project Objective

The purpose of this Request for Quote (RFQ) is to establish a Contract for the provision of a new, permanent, fully accredited, reliable and scalable Network for sharing of up to NATO SECRET Releasable to Operation Sea Guardian (OSG) information with OSG Operational Partners. For that purpose, the NCI Agency is seeking to procure five (5) NNN MOC Points of Presence (POP) to facilitate exchange between OSG NNN and upgrade the Mission Anchor Function (MAF).

2. Scope of Work

The implementation of the NNN MOC consists of the design, assembly, connection, integration, testing and configuration of Commercial of The Shelf (COTS) components, into bespoke systems that are fit for purpose.

3. Period of Performance

The Period of Performance is anticipated to start in Q3 2024 and end in Q3 2025. It is important to note that this timeline represents the anticipated duration of the Project, and adjustments may be made as per the requirements of the solicitation process and subsequent contractual agreement.
