

## **NATO COMMUNITY DEVELOPMENT (NCoDe) LICENCE**

*Version 1.0, 24 March 2020*

### **1. Scope**

The Contributor hereby grants to the User and the latter hereby accepts, subject to the terms and conditions of this Licence Agreement, a non-exclusive, transferable, free of charge licence.

By submitting a Contribution, the Contributor gives the User all rights to use, modify and distribute the Contribution among the members of the NCoDe Community.

Every modification by the Contributor, the User or any other member of the NCoDe Community of a Contribution (including its source code) must be submitted to the NCoDe Community and upon such submission it becomes a Contribution itself.

### **2. Distribution of a Contribution**

Distribution of a Contribution to members of the NCoDe Community is governed by the Directive on Obtaining Software for NATO<sup>1</sup>. The User is free to share the (original or modified) Contribution with other NCoDe Community members.

Distribution of a Contribution to entities that are not members of the NCoDe Community is subject to a licence agreement (no less strict than this Licence) between NCI Agency and that entity, and is governed by the Directive on the Release and Public Disclosure of NATO Software<sup>2</sup>. Additionally, release of Contributions to non-NATO entities is subject to the terms and conditions of the NATO Software Policy.

### **3. Effective Date**

The licences granted under this Licence with respect to any Contribution become effective for each Contribution on the date the Contributor first contributes such Contribution to the NCoDe Community.

### **4. Responsibilities of the Contributor**

The Contributor (which includes any User who modifies (part of) the Contribution and thereby becomes a Contributor himself) ensures and represents that it's Contribution:

<sup>1</sup> AC/322-D(2020)0004-REV2 (INV)

<sup>2</sup> AC/322-D(2019)0033-REV1

- a. Includes the Contribution's source code form;
- b. Includes a legal notice conform to paragraph 11 to this Licence;
- c. Does not infringe upon a third party's intellectual property rights;
- d. Is not subject to export control regulations;
- e. Is not subject to licensing conditions limiting or conditioning use, modification, ownership or disclosure of the Contribution;
- f. Cannot be revoked after having been contributed.

Responsibility for (the consequences of) any breach of these obligations shall be borne by the respective contributor.

## **5. Responsibilities of the User**

The User ensures and represents that:

- a. It shall use the Contribution in accordance with the terms and conditions of this Licence;
- b. All modifications to the Contributions, including source code, shall be submitted to NCI Agency to become a Contribution to the NCoDe Community;
- c. Any transfer or disclosure of the Contribution to another authorised party shall be accompanied by a copy of this Licence.

## **6. Required Notices**

Each Contribution must contain a legal notice conform to paragraph 11.

## **7. Versions of the Licence**

NCI Agency is the author of this licence document and may publish revised and/or new versions of this licence document from time to time. Each version and revision will be given a distinguishing version number and will be published on the NCI Agency's website<sup>3</sup>.

Any member of the NCoDe Community may always use, distribute or otherwise make available the Contribution under the version of the Licence under it was contributed to the NCoDe Community unless the Contribution contains a notice prohibiting it from being distributed or otherwise made available under any subsequent version of the Licence.

---

## **8. Termination**

This Licence and the rights granted hereunder will terminate automatically if the Contributor fails to comply with terms herein and fails to cure such breach within 30 days of becoming aware of the breach. Provisions which, by their nature, must remain in effect beyond the termination of this Licence shall survive.

## **9. Disclaimer of Warranty**

The Contributor warrants that the Contribution does not infringe upon the intellectual property rights of any third party. The Contribution is provided under this Licence on an as-is basis, without warranty as to its functioning or fitness for purpose. This disclaimer of warranty constitutes an essential part of this Licence.

## **10. Dispute Settlement**

In case of disagreements, all disputes shall be resolved by consultation between the Parties and shall not be referred to any national or international tribunal or other third party for settlement.

## **11. Source Code Form Licence Notice**

To apply the NCoDe Licence to your work, attach the following notice to the Contribution's source code (with the fields enclosed by brackets replaced with your own information). The text should be enclosed in the appropriate comment syntax for the file format.

“Copyright [yyyy] NATO. Created by [creator]. Modified by [Contributor(s)].

Use of this software is subject to the terms of the NCoDe Licence, v. 1.0. If a copy of the NCoDe Licence was not distributed with this file, you can obtain one at <https://www.ncia.nato.int/NCoDe/v1.0/>.”

If it is not possible or desirable to put the notice in a particular file, then the Contributor may include the notice in a location (such as a LICENCE file in a relevant directory) where a recipient would be likely to look for such a notice.

## 12. Definitions

“**NCoDe Community**” means the NATO nations, bodies and agencies participating in the collective development of software.

“**Contributor**” means the individual or entity that makes software or related products available under this Licence. For legal entities, the entity making a Contribution and all other entities that control, are controlled by, or are under common control with that entity are considered to be a single Contributor.

“**Contribution**” means any original works of authorship, including modifications or additions to an existing work that are the subject of this Licence.

“**User**” means any member of the NCoDe Community.

“**The Purpose**”: under the terms of this Licence, the Contributor provides software to the NCoDe Community for the purpose of further developing that software (and related products) in order to create better and more interoperable software solutions in support of NATO’s missions.

To “**modify**” a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a “**modified version**” of the earlier work or a work “based on” the earlier work.

“**NATO**” is the North Atlantic Treaty Organization and the bodies governed either by the Agreement on the status of the North Atlantic Treaty Organization, National Representatives and International Staff, signed in Ottawa on 20th September, 1951 or by the Protocol on the status of the International Military Headquarters set up pursuant to the North Atlantic Treaty, signed in Paris on 28th August, 1952.

“**Original Software**” means the first version of a work of software that has been contributed to the Community.

“**Source Code Form**” means the form of the work required for making modifications.

“**Executable Form**” means the form of the work that is capable of being executed or run as a program in a computer.
