

NCIA BASIC ORDERING AGREEMENT APPLICATION

Company Name:	Short Name:	Is this a Renewal?	No Yes	If 'Yes', BOA №
Address of Incorporation:	City & State	ZIP Code		Country
Mailing address (if different):				
Point of Contact BOA RFQ Contact:	E-mail	Tel.		
Point of Contact №2:	E-mail	Tel.	Type	
Point of Contact №3:	E-mail	Tel.	Type	

CATEGORIES OF PRODUCTS & SERVICES

(Companies will receive an Invitation for Bid based on the selection they make in this list, so select as many categories as possible that apply to your company. We are in the process of updating the list, but until it is finalised, you are encouraged to select broad categories of products and services. When a particular Invitation for a bid arrives, you will be able to decide if the requirement is within your capabilities.)

**Communications, Computer Equipment,
Peripherals, Components and Supplies**
Communications and computer supplies

Audio recording media	Blank audiotapes
Data storage media	Blank data tapes Floppy diskettes High-density removable media blank disks Recordable compact discs (CD's)
Multimedia storage	Compact disc (CD) cases Diskette holders Multimedia drawers Multimedia towers

Hardware and accessories

<u>Antennas</u>	Aircraft antennas Automotive antennas Broadcast antennas Communications antennas Microwave antennas Radar antennas Radio antennas Satellite antennas Television antennas
-----------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<u>Audio and visual accessories</u>	Computer speakers Multimedia kits Musical instrument digital interface (MIDI) interfaces or adapters Radio cards Signal processor upgrades Television cards Video capture boards
-------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<u>Automated data collection Equipment</u>	Bar code equipment Camera-based vision systems for automated data collection Radio frequency data communication equipment Radio frequency identification (ID) equipment
------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<u>Computer control and interface boards and cards</u>	Audio cards Emulation adapters Graphic accelerator cards Network interface cards Parallel port cards Parallel to serial converters Parallel to small computer system interface converters Serial infrared ports Serial port cards Small computer system interface (SCSI) controller cards Video accelerator cards
------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<u>Computer switch boxes</u>	Automatic printer switches Keyboard video mouse (KVM) switch boxes Manual printer switches Serial switch boxes
------------------------------	-------------------------------------------------------------------------------------------------------------------------

<u>Computers</u>	Docking stations Mainframe computers Notebook computers Personal digital assistants (PDA's), or pen-based computers Port replicators Servers Workstations, desktop computers
<u>Electronic data storage equipment</u>	Combination floppy drives Compact disc (CD) jukeboxes or changers Disk arrays Floppy drives Hard drives High capacity removable media drives Multi-drive hard drive towers Read-only compact disc (CD) drives Recordable compact disc (CD) drives Reel to reel tape drives Single optical drives Tape arrays Tape drive auto loaders or libraries
<u>Enclosures, frames and backplanes</u>	Chassis Expansion slot expander Network chassis Racks
<u>Input devices</u>	Computer mice Graphics tablets or digitizers Joysticks or game pads Keyboards or keypads Remote user interfaces Scanners Touch pads Trackballs Voice microphones for computers
<u>Memory and central processing units (CPU's)</u>	Cache memory Central processing unit (CPU) motherboards or daughterboards Central processing unit (CPU) processors
<u>Modems and related hardware</u>	Integrated services digital network (ISDN) adapters Modem banks Modems Modems and network combo cards
<u>Monitors and displays</u>	Flat panel displays Monitors Touch screen monitors
<u>Network hardware, components and accessories</u>	Adapters Data service units (DSU's) Hubs or concentrators Media filters Multistation access units (MAU's) Network bridges Routers Wide area network (WAN) cards
<u>Network repeaters</u>	Attached resource computer network (ARCnet) repeaters Ethernet repeaters Fiber distributed data interface (FDDI) repeaters Token ring repeaters
<u>Network switches</u>	Asynchronous transfer mode (ATM) switches Fiber distributed data interface (FDDI) switches Local area network (LAN) switches Wide area network (WAN) switches
<u>Printers</u>	Band printers Dot matrix printers Inkjet printers Label printers Large format printers Laser printers Line matrix printers Page printers Plotters Thermal tape printers

<u>Radio systems</u>	Receivers Short wave equipment Transceivers Transmitters Tuners
<u>Telecommunications equipment</u>	Electronic sound equipment Intercommunications or paging systems Line conditioners Pagers or beepers Public address equipment Satellite communication equipment Teleconferencing equipment Telegraph equipment Teletype equipment Wireless base stations
<u>Telephony equipment</u>	Analog or digital cellular telephones Analog or digital telephones Answering machines Cordless telephones Exchange components (CODEC) Exchange data interface cards Exchange datacom modules Exchange trunk interface or card components Mobile telephones Pay telephones Phone exchange interfaces or components Premise branch exchange (PBX) systems Punch down blocks Switchboard equipment Telephone headsets Telephone switching equipment Voice mail systems
<u>Securised Hardware</u>	Crypto
<u>Rugged</u>	Rugged Computers Rugged Displays Rugged Network Rugged Peripherals
<u>Tempest LEVEL I (AMSG720B)</u>	Tempest LEVEL I Computers Tempest LEVEL I Displays Tempest LEVEL I Network Tempest LEVEL I Peripherals
<u>Tempest LEVEL II (AMSG788A)</u>	Tempest LEVEL II Computers Tempest LEVEL II Displays Tempest LEVEL II Network Tempest LEVEL II Peripherals
<u>ZONED</u>	ZONED Computers ZONED Displays ZONED Network ZONED Peripherals Security Software
Software	
<u>Business transaction and personal business software system software</u>	Accounting software Facilities management software Financial analysis software Inventory management software Investment management software Software suites Tax preparation software Time accounting or human resources software
<u>Communication Software</u>	Desktop communications software Exchange software Interactive voice response software Modem software Remote access software Video conferencing software
<u>Database systems</u>	Database software

<u>Document creation software</u>	Desktop publishing software Document management software Electronic publishing software Optical character reader (OCR) software Presentation software Scanner software Voice recognition software Word processing software
<u>Drawing and imaging software</u>	Charting software Computer-aided design (CAD) software Computer-aided manufacturing (CAM) software Form-making software Graphics software Mapping software
<u>Industry specific software</u>	Aviation ground support software Aviation test software Flight control software Point of sale (POS) software
<u>Internet and intranet software</u>	Internet browsing software
<u>Miscellaneous software</u>	Computer game software Educational software Entertainment software Family titles Screen savers Training software
<u>Multimedia software</u>	Music or sound editing software
<u>Networking software</u>	Administration software Bridge software Communications server software Compact disc (CD) server software Gateway software License management software Mainframe transaction processing software Multiplexer software Network analysis software Network connectivity terminal emulation software Network monitoring software Network operating system software Network security software Networking developer's software Operating system enhancement software Optical jukebox server software Platform interconnectivity software Switch or router software Transaction server software
<u>Operating systems</u>	Mainframe operating system software Personal computer (PC) operating system software
<u>Print shop software</u>	Address book making software Label making software
<u>Programming languages and tools</u>	Compiling softwares Configuration management software Development software Graphical user interface (GUI) tools Program testing software Programming languages
<u>Scheduling and productivity software</u>	Contact management software Project management software Scheduling software
<u>Software utilities</u>	Backup or recovery software Bar coding software Compression utilities File security or data security software Foreign language translation software General utility software Print utility software Storage media loading software Virus protection software
<u>Spreadsheets and enhancement software</u>	Spreadsheet software

Miscellaneous

<u>Audio/Visual Equipment</u>	Digital camera LCD projectors Television Video camera Video cassette recording Video project equipment
<u>Electrical components and supplies</u>	Power distribution units (PDU) Power supply units (UPS) Global positioning systems (GPS)
<u>Office Equipment, accessories and supplies</u>	Facsimile Photocopiers
<u>Power generation and distribution</u>	Batteries and accessories
<u>Electrical wire, cable and harness</u>	Network cable Power generators
<u>Prefabricated structures</u>	Container units Shelters

Services

Civil Services

Building support, maintenance and repair services

<u>Electrical Services</u>	Communication equipment installation Electrical power systems installation or services Electronic controls installation Safety and security systems installation
----------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<u>Environmental Services</u>	Environmental Management Environmental Protection General building construction Infrastructure construction and maintenance
-------------------------------	--------------------------------------------------------------------------------------------------------------------------------------

<u>Transportation, Storage and Mail Services</u>	Material packing and handling Storage Transport operations
--------------------------------------------------	------------------------------------------------------------------

Computer services

<u>Computer programmers</u>	Programming
-----------------------------	-------------

<u>Data services</u>	Data processing or preparation services On-line data processing
----------------------	--------------------------------------------------------------------

<u>Information retrieval systems</u>	Database information retrieval On-line database information retrieval Remote database information retrieval
--------------------------------------	-------------------------------------------------------------------------------------------------------------------

<u>Internet services</u>	Electronic mail service provides Internet service provides (ISP) Web search engine providers World wide web site design services (WWW) World wide web site operation (host) services (WWW)
--------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<u>Management information systems (MIS)</u>	Database design Electronic data interchange design (EDI) Local area communications design (LAN) Systems architecture Wide Area communications design (WAN)
---------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<u>Software engineering</u>	Application implementation services Application programming services Client/server programming services ERP/database applications programming services Internet/intranet client application development services Internet/intranet server application development services Mainframe software application design Operating system programming services Personal Computer application design Systems integration design
-----------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<u>Systems administrators</u>	Computer, network or internet security Data storage Database analysis Local area network maintenance and support (LAN) Mainframe administration services Proprietary or licensed systems maintenance or support System installation Systems analysis Wide area network maintenance and support (WAN)
-------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<u>Educational and training services</u>	Computer based training (CBT) Educational facilities
<u>Vocational training</u>	In service training/manpower development
Management, Business Professionals and Administrative Services	
<u>Business administration services</u>	Business facilities Management support services
<u>Human resources services</u>	Human resource development Personnel recruitment Temporary personnel services
<u>Management advisory services</u>	Business or corporate management Industrial management Project management
Research and Science-based Services (no computer services)	
<u>Earth science services</u>	Cartography (Geographic Information Systems) Economics
<u>Manufacturing technologies</u>	Facilities management
<u>Professional engineering services</u>	Civil engineering Electrical and electronic engineering Mechanical engineering Statistics
Security and Safety Services	
<u>Military services and national defense</u>	Science and research
<u>Security and personal safety</u>	Security systems services
